HARVEST EVANGELISM
FEBRUARY 2005 REPORT

Dear Friend,

Last month I shared with you one of the most thrilling reports I have ever written: the successful launch of a nation transformation process in Argentina and the bright hope dawning in other countries as well. The breakthrough was even more precious because it came after an arduous campaign into which we invested everything we had.

The exhilaration we experienced seeing the Kingdom of God invade the heart of a nation – the marketplace – and the resulting explosion of national hope must have been similar to what the WWII troops felt when the initial fog of war subsided after D-Day and they knew that a beachhead of tremendous significance had been established. In our case, the breakthrough could signify the beginning of the end for Satan's stronghold over nations.

Like those successful Allied troops after the initial Normandy invasion, it was important for us to celebrate the victory with you and now, most important, to share about the orders we have received from High Command about the next front.

The enemy cannot avoid the significance of the transformation of Argentina because when completed, other nations, energized by its example, will follow suit. He will not give it up without a fight since a cornered enemy is far more determined than one who senses no threat. *This is why for total victory to be achieved, we must overrun his positions and set the captives – millions of them – free!*

Now, let the Holy Spirit engage you as you read on. This is the moment we were born for! You and I have a rendezvous with history!

UPPING THE STAKES

The Lord's marching order is that we must complete the work in Argentina while continuing to expand the theater of operation to other strategic nations. This will initiate new transformation efforts and produce an expanded and secure base in Argentina from which to synergize world transformation.

Historically, Argentina has been used by God as a catalyst for the gestation, birth and transfer of prototypes to other nations. For instance, the first model for city reaching was developed in Resistencia 15 years ago and today different versions of it are being duplicated worldwide. The emerging nation transformation process in Argentina has upped the stakes immensely, for when emulated, the devil blinding influence over nations will be dealt a tremendous blow.

THE PACIFIC THEATER

In my previous report, I highlighted several nations impacted by the Argentine prototype that are now in the forefront of transformation. The place that has emerged in recent months as a particularly potent example is Hawaii, which is especially significant because it is in the modernized "first-world," the USA.

I would now like to provide you with a dossier on the effort in Hawaii that will energize the next phase of transformation both there and in Argentina.

HAWAII

THEATER OF OPERATION: HAWAII

Is Hawaii a nation? Yes, but it is also a kingdom. Hawaii is the only state in the U.S.A. to have the heritage of being a kingdom nation. As transformation comes to Hawaii, that heritage will give to her the unusual potential to impact her native roots, the nation into which she is absorbed, and the nations of the Pacific Rim by virtue of her strategic location and the millions who visit her every year. There are few other nations with so much potential.

RECENT INTELLIGENCE: One of the most significant spiritual acts in modern times took place in Hawaii when on December 8, 2004, Lt. Governor Duke Aiona issued a proclamation (see text below) dedicating Hawaii to the Lord Jesus Christ. This is a manifestation of the emerging transformation in the Hawaiian marketplace. Never before has such a high official publicly and without reservations turned an entire state over to Jesus!

Since then, the local press has been reporting "good news" in the form of extraordinary developments that confirm a change in the spiritual climate over the islands. Additionally, a Christian councilman in a suburb of Honolulu recently testified that he has never seen such a high level of cohesive partnership among believers in his district...and credits the change to the decision of several congregations to take the presence and power of God outside of their buildings and into the community.

STRATEGIC DEPLOYMENT: On February 23-26, Harvest Evangelism is hosting an international summit in Honolulu for both marketplace and pulpit ministers to examine the latest nation transformation intelligence, especially in the context of the Hawaiian model, with the goal of developing new corps of nation transformers.

One of the key players in this unfolding thrust is Pastor Cal Chinen. We are so grateful for the bonds of love and respect that unite us, as reflected in what he wrote recently:

"I believe that God has a message for us through Ed Silviso. In fact, I believe that what he has to say will not only affect us, it will impact us

and empower us to disciple Hawai'i and the nations. God's call upon our church is for all of Hawai'i. It is not just for us as individuals. It is not just for our families. It is for all of Hawai'i. It is not just for

today. It is for years to come. It is for the next generation.

I cannot think of another individual who has so impacted our church for the whole state than Ed Silviso. The message that God has for us spoken through Ed is for all of us."

Pastor Cal Chinen
Moanalua Garden Missionary Church

Prayer of Dedication over Hawai'i Led by Lt. Governor Duke Aiona December 8, 2004

"Right now, Whether we feel it or not, Whether we know it or not, Whether our circumstances show it or not, We declare, By faith, In our Lord Jesus Christ, That He is the Light of the World. He is the Light of Hawai'i.

And we invite you, Lord, To be the light of our school, To be the light of our community, To be the light of our city, To be the light of our island, To be the light of our state, To be the light of all of Hawai'i!

And we declare, That our school, Will become God's school. Our community, Will become God's community. Our city, Will become God's city.

Our island will become God's island. Our state will become God's state. Our Hawai'i will become God's Hawai'i. Lord Jesus Christ, As it is heaven, So also in Hawai'i, Let Your kingdom come! Let your will be done! Amen!"

UPCOMING STAGING POINTS!

Because of the spiritual momentum in Hawaii, our Apostolic Transformation Network (ATN) gathering will take place in Honolulu on Feb. 23-26. On the last day, up to 1,000 Hawaiian leaders will join the international members in a large convocation to cast the vision for the total transformation of Hawaii, as well as the nations represented.

This is a staging event to gather momentum so that on May 19-21, up to 10,000 Hawaiian leaders will participate in a training seminar to move the process even higher. In fact, the May event will climax with a commissioning service to send out thousands of marketplace ministers to take the presence and power of God all over Hawaii.

What is happening in Hawaii, like so many other city and nation transformation models, has a direct link to Argentina as the source of inspiration and impartation for many of those who are leading the charge. It validates once again the consistent pattern that the more we invest in the transformation prototype in Argentina, the more Argentina produces for the transformation of other nations. As you can see, the staging points are set, the troop movements are being coordinated and now the final and most critical step lays before us: the acquisition of the material needed to lead the charge globally in 2005. Please read on for details.

EQUIPPING THE MISSION - WHAT IT WILL TAKE:

HARVEST EVANGELISM GLOBAL INFRASTRUCTURE AND OPERATIONS

STRATEGIC VALUE: Harvest Evangelism encompasses 77 team members in 5 continents with one mission: The facilitation of nation transformation, with the premiere prototype developing in Argentina. The total overhead cost for the entire operation is \$60,000 per month. Two-thirds of this has been funded by your current giving. The other third - \$21,000 per month to be exact - requires additional support.

THE COST: \$252,000 (\$21,000 x 12 months)

MOBILE DENTAL/MEDICAL CLINICS

STRATEGIC VALUE: Mobile Clinics minister to the most urgent health needs of a nation. Christian health professionals, trained in prayer evangelism, donate services in mobile clinics parked at schools, prisons and depressed areas for one week at a time. Multitudes are impacted and civil authorities are moved to join the transformation process and open wider doors for it as they see the heart of practical Christianity. The need now is for five new units, one for each key region in Argentina, to supplement the work of the two already in existence that have ministered to thousands.

THE COST: \$120,000 (\$24,000 per unit x 5 units)

DEVELOPMENT OF NEW SYSTEMS AND TRAINING MATERIALS FOR MARKETPLACE MINISTRY

STRATEGIC VALUE: The successful training and incorporation of marketplace ministers into the effort requires cutting-edge equipping materials and tools. Specifically:

- 1) New Video and Audio Productions focusing on the transformation of the marketplace.
- 2) Internet-based training system to create "global classrooms" on nation transformation for leaders overseas.

THE COST: \$120,000

ARGENTINA OUTREACHES / VISION-CASTING ABROAD

STRATEGIC VALUE: The 2004 Argentina outreaches were the cornerstone of the breakthroughs we reported, and given its strategic role, funding is needed to expand their scope in order to reach all 40 million inhabitants. The second half of the equation is funding for vision-casting trips to new theaters of operation in Third World countries such as: the Philippines, Indonesia, Malaysia, Brazil, the Caribbean and Africa.

THE COST: \$150,000

I hope you are as encouraged as we are to learn that a relatively modest additional sum can leverage such massive-scale transformation. Imagine thousands, even millions of people coming to Christ – entire industries, governments and school systems experiencing Kingdom transformation. I urge you to ponder this in God's presence and to move your partnership in this eternal enterprise to the highest possible level.

OUR MARCHING ORDERS FOR VICTORY:

My friend, if the Allies had remained on the beaches of Normandy instead of pressing into France and ultimately Germany itself, the Axis powers would have regrouped, counterattacked and repelled them, rendering the world's greatest military landing useless. Like our WWII counterparts, the key is to press on right into the enemy's camp to see multitudes and entire nations spiritually liberated now.

Your partnership has been and remains vital to accomplishing this task. That is why we prayerfully ask you to consider the following:

n In addition to your current giving, please consider an increase to make possible reaching the stated goals

n A sacrificial gift set aside from God's generous provision to you to invest it into this nation changing thrust, or

n If unable to do this now, please consider making a faith pledge to be fulfilled in 2005 to allow us to plan accordingly.

We believe that by sharing with you at the beginning of the year what God is asking us to undertake in 2005, you and others, after seeing the eternal and strategic value of the mission, will enable us to reach it by increased investments in prayer and finances. This is why we respectfully suggest that you ask the Lord to show you what level of investment He would have you make to see nations changed and let us know right away via the enclosed card.

Let us now join hands and hearts to take the power and presence of God to nations where captives still exist. Thank you again for the joy and the privilege of marching side by side as we follow the Lord's lead into new frontiers.

Looking forward to hearing from you soon since time is of the essence,

Ed & Ruth Silvano
